

GREENNIO

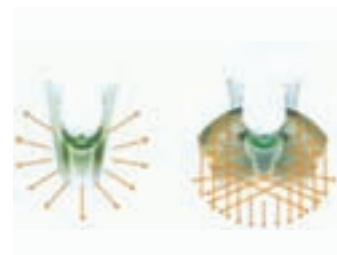

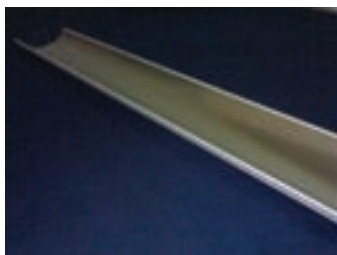

IMPLEMENT ENERGY SAVING

NANO REFLECTOR (ແຜ່ນສະກັດແສງ ປະສິດທິພາບສູງ)

50%

BRIGHTER

GREENNIO REFLECTOR

BENEFITS

- Enhanced lighting - Reduced Watt
- Saving energy of electricity 50%
- Saving cost of electricity with high efficiency
- Replacing old fluorescent lamp 2x36w to 1x36w+Nano Reflector **ONLY**

PRODUCT SPECIFICATIONS

- Nano Reflector High efficiency which has value of Purity no less than **99.85%**, and through manufacturing process "High Nano Technology"
- Sealed Plate It is made from "PVC" grade A" which is capable for high temperature of heat up to **200°C**. Difficult to catch fire as well. (Normally Fluorescent Lamp can only stand no more than 100°C). Therefore Nano Reflector is trust-worthy products.
- Dimension (mm.) W85mm x L115mm x H3mm.

Distance measurement (meter)	Without Nano Reflector (Lux)	With Nano Reflector (Lux)
1.5	128	393
2	92	282
2.5	63	189
3	43	131
